

Introduction to research and funding opportunities at EBRI

Christelle Harrison, BSC Manager

- EBRI building
- EBRI and industry
- Projects at EBRI
- Research at EBRI
- Funding streams and collaboration

European Bioenergy Research Institute (EBRI)

EBRI and industry

Workshops and seminars – knowledge exchange
Over 100 West Midlands companies engaged to date
from a wide variety of sectors

Support:

Testing of unusual biomass

Business modelling for new bioenergy and energy from
waste projects

Academic consultancy style advice

Market research

Policy research, modelling and consultation

Projects at EBRI

Transnational Access to World-leading Research Facilities

Aligning Europe's Leading Bioenergy Research Activities

Cutting-edge Research and Technology Development

Technology Demonstration & Knowledge Transfer

European Partnerships and Research Collaborations

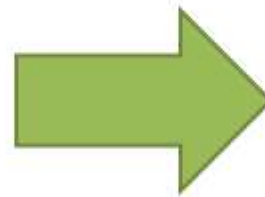

Micro-Scale Bioenergy Applications in Developing Economies

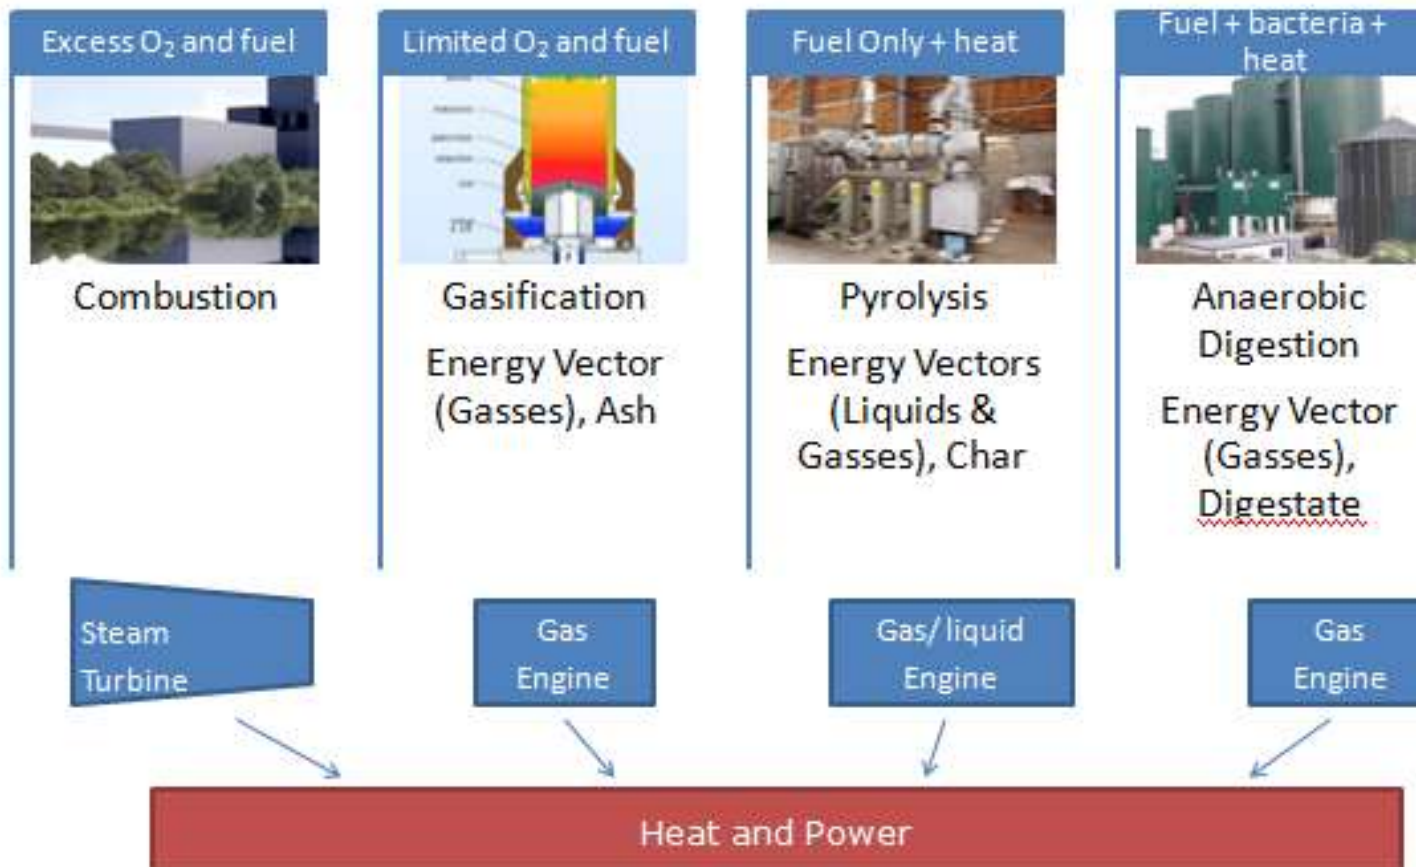

Research at EBRI

Converting 'Biomass'

into useful products

Research at EBRI

Intermediate / Fast Pyrolysis

Bioenergy Markets

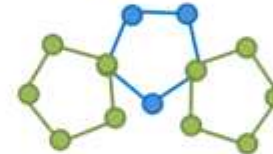

Gasification

Biochar Analysis

Anaerobic Digestion

Catalysis

Feedstock Analysis

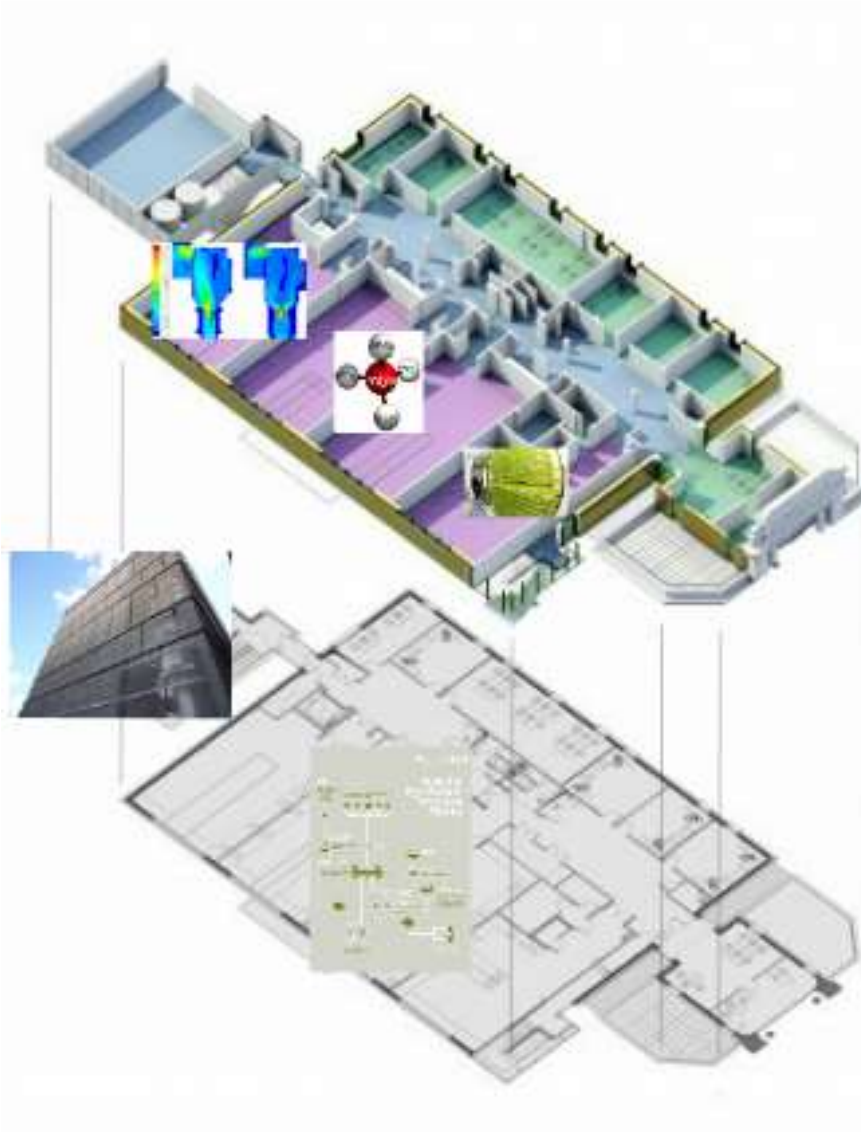

Biofuel Analysis

'Green' Hydrogen

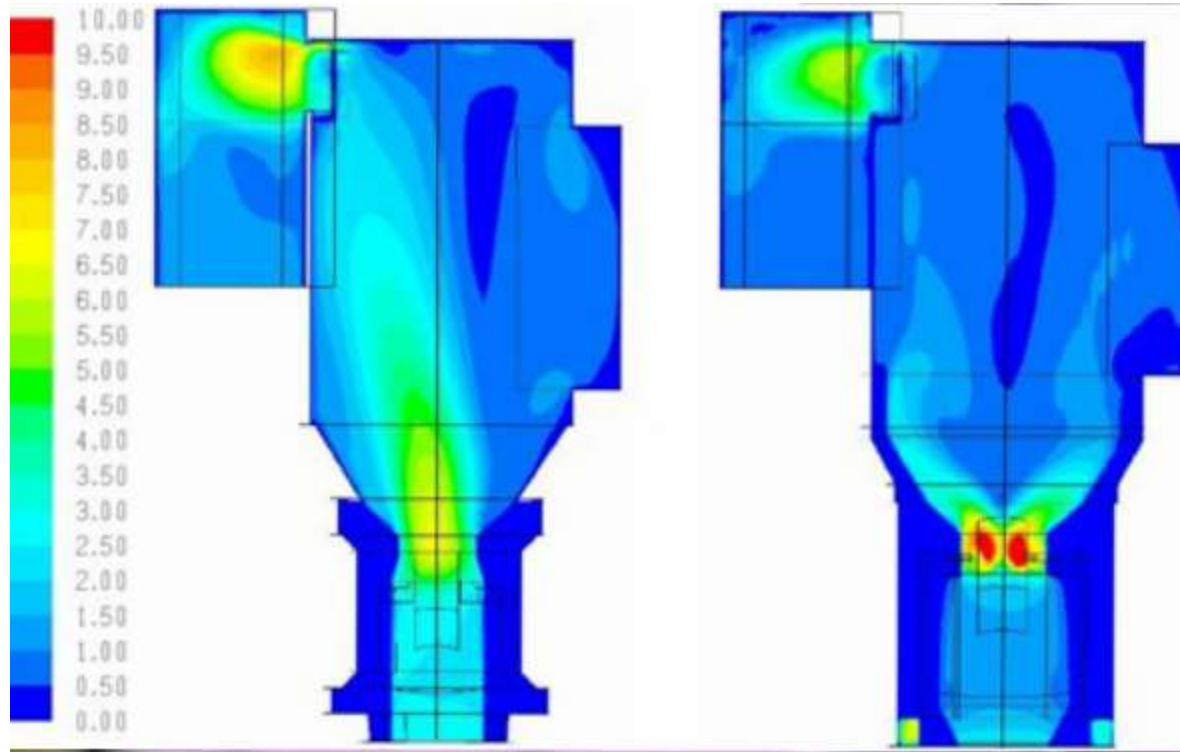

Algae Cultivation

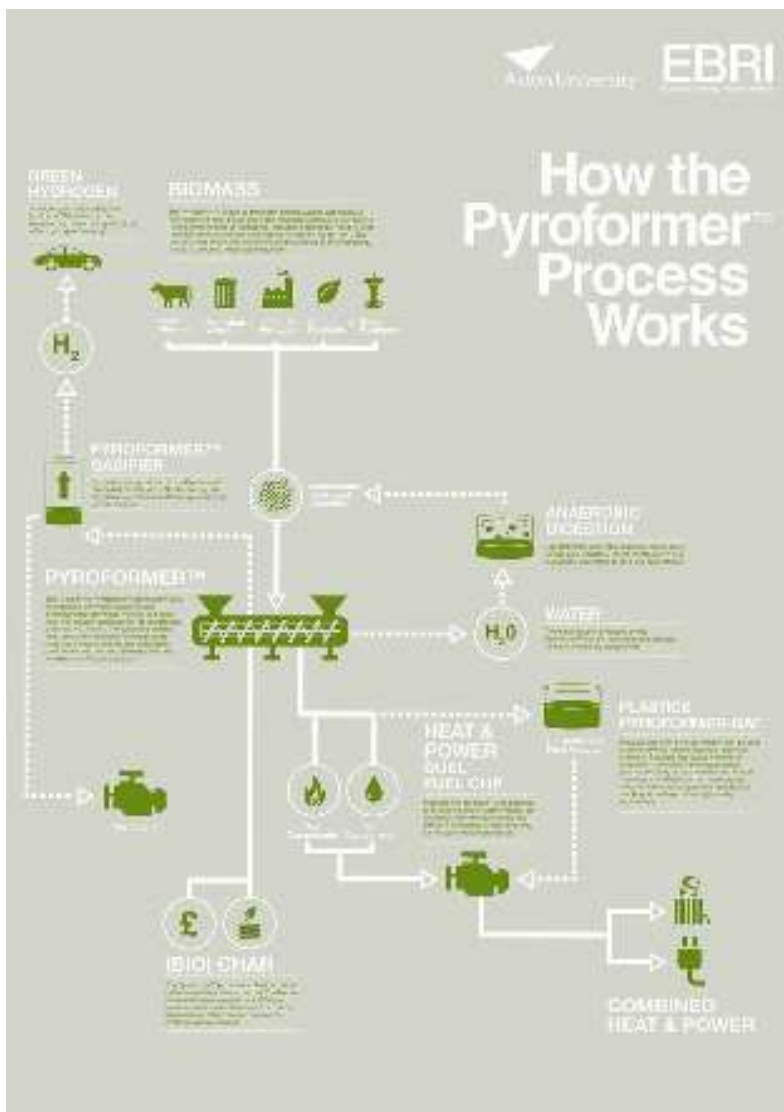

Funding streams and collaboration

Future funding
